

April 22, 1931.

Mr. C. A. Engle,
Supervising Engineer,
U. S. Indian Service,
409 Atlas Building,
Salt Lake City.

Dear Sir:

RE: UINTAH DIST.

As I recall it some days ago Mr. Humpherys telephoned the office and asked that he be advised if request was made by the White settlers in the Uintah Basin for the appointment of a water commissioner.

I wish you would please advise Mr. Humpherys that such a request was made today and after most careful consideration of all the matters involved I have appointed Mr. B. O. Colton, Jr., of Roosevelt, Water Commissioner in the Uintah Basin for the distribution of the waters of Uintah and Lake Fork Rivers.

Yours very truly,

State Engineer.
